

FS348 Stainless Steel Weighing Scale

Features

Accuracy: III class
Specification: (0~30000) d
Nonlinearity: $\leq 0.01\%$ F.S
System working voltage: DC:5V
Division: 1/2/5/10/20/50
Sampling speed: 10/80 times / second
Internal resolution: 300000~600000
Lithium battery: 3.7V 3000mah

AC: Use adapter
Input: AC 110~240V
Output: DC 9V/500~600mA

Main system consumption current (sleep state): About 25mA
Main system consumption current (LCD working state): About 50mA

LOADCELL connection (for indicator)

PIN1: E+ PIN3: S+
PIN2: E- PIN5: GND
PIN4: S-

Protocol specification

This indicator has 25 protocols, combined with menu F9 function, to be used for docking different kinds of guns.

Some of the agreements are as follows:

Capacity	Division	Dimension
60 kg	50 g	30 x 40 cm
300 kg	100 g	40 x 50 cm
